Patent Feather Renovator.

Persons having Feather Beds, which have an offensive smell, can have them effectually cleansed by the Patent Renovater used by us, which not only kills the moths, and thus prevents the destruction of the bed, but thoroughly ventilates the feathers without injuring them, and removes all unpleasant odors. Beds sent to be cleansed can usually be returned the same day.

Piano Fortes.

As the Piano Forte has become an essential article in a well-furnished house, the Proprietor has kept from the outset a stock embracing many of the best makers in New York and Boston. At present we are supplied with Pianos mostly by Nunns & Clark, New York.—The superior reputation of these celebrated manufacturers, is of very long standing, and well known and acknowledged throughout the country. Every Instrument is warranted, and every imperfection made good. The liberal discount which Nunns & Clark make to us on these instruments at wholesale, enables us to retail them at prices not much exceeding those of other makers. As Messrs. N. & C. own and exercise the exclusive right (except Mass.,) to use Coleman's celebrated Æolian attachment, we are able to furnish Pianos with the Attachment to those who desire them.
